|---------------------------|------------------------------------|
| 1. Salt generator "iris". | 5. Dressing room. |
| 2. Technician's room. | 6. Entrance door to the Salt Room. |
| 3. Dry salt aerosol. | 7. Patients' seats. |
| 4. Video monitor. | 8. Resting room. |

* There are several possibilities of the inside surfaces covering, e.g. of this 17m² salt room:

- ceiling, walls and floor are fully covered with Rock Salt, needs approx. 3000 – 3500 kg salt and surfaces are covered in 4-layers;
- only walls and floor are covered with salt (approx. 2700–3200kg);
- only walls are covered with salt (approx. 800–1200kg);
- only floor is covered with salt (approx. 1800–2200kg).
